

TRIGEO NETWORK SECURITY SURPASSES 100TH CUSTOMER MILESTONE

Mid-Sized Market Drives Triple Digit Year-Over-Year Revenue Growth

POST FALLS, IDAHO – (May 7, 2005) – TriGeo Network Security (www.trigeo.com), the pioneer and leader of Automated Remediation through Intelligent Correlation™, today announced that it has crossed the 100th customer mark. This critical mass of new customers demonstrates significant market interest in the industry's first product for the small to medium enterprise (SME) that automatically identifies, notifies and responds to suspicious behavior, policy violations, and network attacks.

“There’s no question the SIM market is heating up for us in a big way and here’s why,” said Michelle Dickman, CEO of TriGeo Network Security. “First, there’s the demand for real-time analysis and proactive technology. An overwhelming majority of customers are telling us that they are finished buying products that are simply forensic in nature. Second, is the necessity of all mid-sized enterprises to gain insight into what’s happening on their network. And third is a strong desire for systems with an intrusion prevention framework that block, quarantine, and protect their networks.”

TriGeo’s focus on the mid-market with a unique SIM-based network defense technology seems to be filling a critical market need. According to Dickman, sales are rising sharply, “We’re seeing a triple digit increase in year over year sales. Given the sheer volume of small and mid-sized enterprises with these needs, we expect our customer base to continue to experience explosive growth.”

About TriGeo Network Security

Formed in 2001 as the pioneer and leader of Automated Remediation through Intelligent Correlation™ for securing small and medium-sized enterprise networks, TriGeo protects your entire network environment--from perimeter to endpoint—with a comprehensive, integrated solution. TriGeo is the leading real-time security information management appliance that automatically identifies, notifies and responds to suspicious behavior, policy violations, and network attacks.

TriGeo is a privately held company headquartered in Post Falls, Idaho. For more information, visit the company’s website at www.trigeo.com or call (208) 664-7000.
