

## **Attendees at Midsize Enterprise Event Name TriGeo Best Mid-Market Hardware Solution**

### **SIEM Company Also Named a Finalist in Four Other Categories**

**POST FALLS, Idaho (Sept. 25, 2007)** — TriGeo Network Security, the leading provider of security information and event management (SIEM) technology for mid-market enterprises, today announced that attendees awarded the company the Best Mid-market Solution for hardware innovation at Gartner's Midsize Enterprise Summit™ 2007.

This marks the second consecutive Midsize Enterprise Summit where attendees have recognized TriGeo for hardware innovation, highlighting TriGeo's commitment to ease of use and simplified deployment of its appliance. This year's award came in one of six categories. TriGeo was a finalist in more categories than any other company; other nominations include: Best in Show, Best Software Solution, Best Presentation, and Best Execution of a Mid-market IT Solution.

The award follows Gartner placing TriGeo in the "Leaders" quadrant in the Magic Quadrant for Security Information and Event Management,<sup>1</sup> (SIEM), 1Q07 report.

TriGeo's Security Information Manager (SIM) is the only real-time SIEM appliance that automatically identifies, notifies and responds to network attacks, suspicious behavior and policy violations, based on hundreds of pre-built correlation rules and users' customized actions. The solution offers total network monitoring of potential insider and hacker attacks, giving enterprises the ability to quarantine, block, route and control services, processes, accounts and privileges.

TriGeo was the first SIEM company to identify and adapt to the security and compliance needs of mid-market organizations. The solution comes stocked with more than 240 pre-built reports for compliance and network analysis, with prices starting below \$20,000. TriGeo has hundreds of customers across key vertical markets including financial services, healthcare, government, utility, retail and media/entertainment.

"Mid-tier businesses need solutions tailored for their unique network configurations and IT staffing needs, while still protecting users and data from rapidly evolving security threats," said Michelle Dickman, president and CEO of TriGeo Network Security. "Our SIM appliance is a 'plug-and-play' extension of

#### **About TriGeo Network Security**

TriGeo Network Security delivers enterprise security information and event management (SIEM) designed specifically for the needs of the mid-market. TriGeo SIM is the only real-time SIEM appliance that automatically identifies and responds to network attacks, suspicious behavior and policy violations. This award-winning product combines real-time log analysis, event correlation, USB detection and prevention with powerful active response technology. TriGeo SIM is both a unique network defense technology and an "Audit-Proven" compliance solution that meets the security monitoring and log management requirements imposed by PCI, GLBA, NCUA, FDIC, HIPAA, SOX and more.

TriGeo has hundreds of customers across key vertical markets including financial services, health care, government, utility, retail and media/entertainment. TriGeo SIM has won numerous awards including the 2007 SC Magazine Reader Trust Award, the 2006 Gartner Best Midmarket Software Solution, and the SC Magazine Best Buy of 2006 award for Event Management. The Company is headquartered in Idaho and is represented by partners nationwide.
