

TriGeo Network Security Earns Certified Partner Status in Microsoft Partner Program

POST FALLS, IDAHO — (May 23, 2005) — TriGeo Network Security (www.trigeo.com), the pioneer and leader of Automated Remediation through Intelligent Correlation™, today announced it has earned certified status in Microsoft Corp.'s Partner Program recognizing TriGeo's expertise and total impact in the technology marketplace. As a Certified Partner, TriGeo has demonstrated expertise with Microsoft technologies and proven ability to meet customer needs. Microsoft Certified Partners receive a rich set of benefits, including access, training and support that give them a competitive advantage in the marketplace.

TriGeo targets the small-to-medium sized enterprise with a unique SIM-based, network defense technology. The TriGeo Security Information Manager is the #1 real-time security information management appliance that automatically identifies, notifies and responds to network attacks, suspicious behavior and policy violations. With its patent-pending technology, real-time log analysis, automatic alerts, and policy-based active response mechanism, TriGeo provides a unique SIM solution that's ideally suited to the midsize enterprise.

"Only companies that have demonstrated high levels of customer service, proved their experience and attained advanced certification receive the designation of Microsoft Certified Partner," said Allison Watson, vice president of the Worldwide Partner Sales and Marketing Group at Microsoft. "Today, Microsoft recognizes TriGeo for its skills and expertise in providing customer satisfaction with Microsoft products and technology."

"Integration with Microsoft products has always been a significant part of our development efforts. Achieving certified status is a reflection of this commitment and allows us to demonstrate both our expertise and our relationship with Microsoft." said Michelle Dickman, CEO of TriGeo Network Security. "As a certified partner, we now have access to resources that will further enhance the offerings we provide to customers."

The Microsoft Partner Program was launched in December 2003 and represents Microsoft's ongoing commitment to the success of partners worldwide. The Microsoft Partner Program offers a single, integrated partnering framework that recognizes partner expertise, rewards the total impact that partners have in the technology marketplace, and delivers more value to help partners' businesses be successful.

About TriGeo Network Security

Formed in 2001 as the pioneer and leader of Automated Remediation through Intelligent Correlation™ for securing small and medium-sized enterprise networks, TriGeo protects your entire network environment--from perimeter to endpoint—with a comprehensive, integrated solution. TriGeo is the leading real-time security information management appliance that automatically identifies, notifies and responds to suspicious behavior, policy violations, and network attacks.

TriGeo is a privately held company headquartered in Post Falls, Idaho. For more information, visit the company's website at www.trigeo.com or call (208) 664-7000.
