

TRIGEO NAMED FINALIST BEST EVENT MANAGEMENT AND BEST SECURITY MANAGEMENT TOOL

TriGeo Secures Top Spots in Two of SC Magazine's 2006 Reader Trust Awards

POST FALLS, IDAHO – (November 22, 2005) – TriGeo Network Security (www.trigeo.com), the pioneer and leader of Automated Remediation through Intelligent Correlation™, today announced that TriGeo Security Information Manager was named an SC Magazine 2006 Reader Trust Awards Finalist in both the Best Event Management and Best Security Management Tool categories.

“These awards reflect the views of IT professionals – real people using real products,” said Michelle Dickman CEO of TriGeo Network Security. “We’ve worked hard to develop truly innovative technology and we’re honored that TriGeo has been recognized for its contribution to network defense.”

With over 1,300 product and service nominations from over 330 competing companies globally, the SC Magazine Awards are the world’s leading awards program for the information security industry. TriGeo has been identified as one of the leaders in the field from among the dozens of companies competing in the security information and event management (SIEM) market. The SC Magazine Awards recognize both technical excellence and professional achievement across a variety of categories, and bring attention to the industry's top products.

About the SC Magazine Awards

The SC Awards program spans US, Asia, and UK. The SC Awards are composed of both the Reader Trust Technology Awards—voted on by SC readers in each region and

the SC Awards Council, a group of carefully selected senior CSOs—and the Professional Awards that are judged by a panel of the industry's top talents.

The SC Awards is a truly unique program developed to bring attention to the industry's top products and highlight the professionals that have both created them and use them within their companies. These industry achievements are acknowledged during the exciting US Awards ceremony taking place this year at the Fairmont, San Jose on February 14th, 2006.

About TriGeo Network Security

Formed in 2001 as the pioneer and leader of Automated Remediation through Intelligent Correlation™, TriGeo protects your entire network – from perimeter to endpoint. TriGeo Security Information Manager is the only network security appliance that automatically identifies, notifies and responds to network attacks, suspicious behavior and policy violations. With its patent-pending technology, real-time log analysis, event correlation, automatic alerts and policy-based active response, TriGeo provides a unique network defense technology and a complete security information management solution.

TriGeo is a privately held company headquartered in Post Falls, Idaho. For more information, visit the company's website at www.trigeo.com or call (208) 664-7000.
