

TRIGEO NAMED SC MAGAZINE'S BEST BUY SIM TOOL

TriGeo gets top rating with outstanding score across a range of criteria

POST FALLS, IDAHO – (November 21, 2005) – TriGeo Network Security (www.trigeo.com), the pioneer and leader of Automated Remediation through Intelligent Correlation™, today announced that the TriGeo Security Information Manager (SIM) has been awarded SC Magazine's Best Buy in a group test of security information management tools.

During thorough testing, SC Magazine evaluated features and analyzed performance of four products providing security event and information management. Features which were audited included event management, logging and analysis, compliance monitoring, reporting and alerts, intrusion detection, vulnerability detection, automated remediation and systems integration.

"The Best Buy is SC Magazine's top award and is only given to products which have been rated by our reviewers as outstanding across a wide range of criteria," said Jon Tullett, Global Technology Editor for SC Magazine. "The product must also raise the bar of the industry through groundbreaking features, excellent ease-of-use and fantastic value for money, as well as having good documentation and helpful support."

According to SC Magazine, "...one quickly gains the impression that the folks at TriGeo have thought things through pretty well in order to ease the implementation of what is, after all, a potentially complex, yet vitally important capability." In awarding TriGeo its Best Buy rating they noted that the TriGeo SIM is "...a highly capable and comprehensive tool that nonetheless is straightforward in its implementation and well supported by the supplier."

"We are proud of the industry recognition that TriGeo has received and especially with the SC Magazine Best Buy award," said Michelle Dickman, CEO of TriGeo Security Network. "This independent evaluation demonstrates that you can solve the log management crisis, provide real-time event analysis and actively defend the network with a product that's powerful, affordable and usable."

Dickman added that TriGeo's automated remediation feature is one of the unique aspects of the technology which sets TriGeo apart from traditional SIM players, and is fast becoming the "must have" requirement for success in this space. Targeting the midsize enterprise, TriGeo Security Information Manager is the only network security appliance that automatically identifies, notifies and responds to network attacks, suspicious behavior and policy violations.

About SC Magazine

SC Magazine is a global information security magazine published by Haymarket Business Publications Ltd. It is read in over 50 countries worldwide and has a circulation of approximately 100,000. There are three separate editions of the magazine: North America – USA and Canada, International – UK and mainland Europe, and Asia Pacific Online, read by decision-makers in over 20 countries in the Pacific Rim region. The magazine is published monthly, usually in the first week of each month. The magazine is the longest running information security magazine in the world, with the widest distribution.

About TriGeo Network Security

Formed in 2001 as the pioneer and leader of Automated Remediation through Intelligent Correlation™, TriGeo protects your entire network – from perimeter to endpoint. TriGeo Security Information Manager is the only network security appliance that automatically identifies, notifies and responds to network attacks, suspicious behavior and policy violations. With its patent-pending technology, real-time log analysis, event correlation, automatic alerts and policy-based active response, TriGeo provides a unique network defense technology and a complete security information management solution.
