## **TRIGEO'S MICHAEL MALOOF HONORED WITH THE SHAPING INFO SECURITY AWARD FROM *INFO SECURITY PRODUCTS GUIDE***

*TriGeo CTO is Among 16 Individuals for Prestigious Individual Award Honoring His Contribution to the Data Security Industry*

**POST FALLS, ID, November 6, 2006** – TriGeo Network Security, a leading provider of security information management (SIM) solutions, today announced that Michael Maloof, the company's chief technology officer, has been honored with a 2006 "Shaping Info Security" Award from *Info Security Products Guide*.

Mr. Maloof is one of 16 individuals selected by this leading security trade publication and he was specifically honored for TriGeo's dedication to providing security information and event management technology that helps organizations gain unique insight into activity on their networks.

The Shaping Info Security 2006 Industry Awards are presented by the editors of the *Info Security Products Guide*, which plays a vital role in keeping end users informed of the choices available when it comes to protecting their digital resources. The awards were established to recognize individuals and teams worldwide that have made the most positive impact on security in today's highly sophisticated and blended attack environment.

"Security vendors like TriGeo have made significant progress in advancing effective data security to organizations across the country and around the world," said Rake Narang, editor-in-chief with *Info Security Products Guide*. "TriGeo is fortunate to have someone of Michael's experience and vision and we are proud to honor Michael Maloof with this year's Shaping Info Security 2006 award to acknowledge his positive contribution to the industry and the users of security products and services all over the world."

TriGeo Network Security is a leading provider of a Security Information Management solution designed for small/medium enterprises to help them effectively monitor and manage activity inside the organization's network. The TriGeo SIM provides reporting and analysis that supports the organization's IT security, audit and compliance functions and provides real-time analysis and automated incident response.

### **About TriGeo Network Security**

Formed in 2001 as the pioneer and leader of Automated Remediation through Intelligent Correlation™, TriGeo protects the entire network – from perimeter to endpoint. With more than 40,000 nodes deployed, TriGeo Network Security is the leading provider of information and event management technology for mid-market enterprises.

The TriGeo Security Information Manager is the only network security appliance that automatically identifies, notifies and responds to network attacks, suspicious behavior and policy violations. With patent-pending technology for real-time log analysis, event correlation, automatic alerts and policy-based active response, TriGeo provides an innovative network defense technology through a complete security information management (SIM) solution.

TriGeo is privately-held with headquarters in Post Falls, Idaho. For more information, visit the company's website at [www.trigeo.com](http://www.trigeo.com) or call (208) 664-7000.

### **About Silicon Valley Communications Awards**

*Info Security Products Guide*, published by Silicon Valley Communications, plays a vital role in keeping end-users informed of the choices they can make when it comes to protecting their digital resources. It is written expressly for those who are adamant on staying informed of security threats and the preventive measure they can take. You will discover a wealth of information in this guide including tomorrow's technology today, best deployment scenarios, people and technologies shaping info security and independent product evaluations that facilitate in making the most pertinent security decisions. The *Info Security Products Guide Awards* recognize and honor excellence in all areas of information security. To learn more, visit [www.infosecurityproductsguide.com](http://www.infosecurityproductsguide.com) and stay secured.
